

THE PRODUCT

- **Humisol 450** is a concentrated liquid humate solution specifically designed for furrow injection and fertigation applications. It is an ideal partner product with UAN, N24 and micronutrients for furrow and fertigation applications.

DIRECTIONS FOR USE

- Product should be used for furrow injection. Inject 2 cm below the seed. Where local experience of successful use is not available, we recommend a small scale jar test and test application prior to wide spread use. If any issues are observed do not continue with the application.
- It is recommended to add product to the tank mix after all other products have been mixed well in the tank, including most of the water.

COMPATIBILITY

Compatible with most common fertilisers, such as NPKs and micronutrients. It is recommended to perform a jar test before mixing. Contact your local Sipcarn Territory Manager for more information about tank-mixing.

SAFETY DATA SHEET

For further information, refer to the Safety Data Sheet (SDS) which is available from the supplier or from our web site, www.sipcarn.com.au

G.H.S STATEMENTS - WARNING

Hazard statements

H315 - Causes skin irritation. H319 - Causes serious eye irritation. H335 - May cause respiratory irritation.

Precautionary Statements - Prevention
