

Grow more maize

Maffra

**Real decisions,
not textbook agronomy**

We'll work through **real local scenarios** like:

- more milk from maize
- leaving yield on the table
- another silage cut or plant maize now?
- short CRM vs chasing more tonnes
- live crop economics - what changes \$/tDM
- talk about failures, and fixing them
- whole farm thinking - silage, cow intake, harvest

NOTMAN PASTURE SEEDS
